TRUST: Truth, Respect, Unity, Safety, and Transformation

Fall 2019 Listening Sessions

What is the Campus Safety Commission (CSC)? The CSC was convened by Interim Chancellor Guskiewicz in April 2019. The mission is to assess the campus climate and culture around campus safety. The CSC was established in a climate of a “crisis of trust” between members of the campus community and the campus police, largely associated with events surrounding protests and events related to the removal of the Confederate Memorial. The 20 members of the Commission include students, staff, faculty, and community members.

What is our goal today? During the months of September and October, members of the CSC are meeting with many student, staff, faculty, and community groups, in large and small settings, to gather feedback. We hope to use this feedback to inform a larger discussion, a campus-wide Town Hall Meeting in November 2019, which will also include discussion of a university-commissioned review of police actions during significant events related to the protests and activities of the 2018-19 academic year.

What will be done with your comments? We will follow “Chatham House Rules” which means that no individuals will be identified or linked to any particular statement, but we will make use of any comments made, attributing them only to these listening sessions. Please note that tonight is designed as a *listening* session; we will not necessarily have answers to all your questions or concerns. We hope to present these at our Town Hall meeting in November and spark a dialogue leading to response, recognition, and healing.

What we want to know from you:

We would pose these questions, but we are also open to your open-ended feedback.

1. What do you need from the University in order to enhance your sense of personal safety?
2. Do you feel that there is a crisis of trust? If so, can you suggest some possible solutions?
3. Outside of the context of the protests and demonstrations related to the Confederate Monument, what makes you feel *unsafe* on campus? What are the main sources contributing to “*a lack of feeling of safe*”? Where or in what circumstances do you feel unsafe?
4. Concerning the protests and demonstrations related to the Confederate Monument, what has made you feel safe or unsafe? Did the police make you feel safe or unsafe? In what ways? How? Is this your personal experience, that of others you know, or based on what you have seen in the media?
5. If you are a member of a particular group or community, are there specific or particular safety concerns for that group that you would like to underscore?
6. We are open to any other comments or ideas you have.

Please note: If you would like to leave anonymous feedback or think of additional ideas after this listening session, please go to this web site where you can leave your feedback for the Commission. Please do so before October 31, 2019. Our website xxx¹

¹ Need anonymous website / form only asking about comments / feedback relating to campus safety / Fall 2019 Listening Sessions, with an optional place to indicate status as undergraduate student, graduate / professional student, staff, faculty, or community member but with no email needed.
